<b>Description:</b> Site S. Northwest section. Typical target area at archery range.	

A photograph of a wooded area, likely a target range. In the foreground, there is a large, dense pile of dry, brown brush or fallen leaves on the left side. The ground is covered with green grass and some fallen leaves. In the background, a yellow excavator or similar machinery is visible, partially obscured by trees. The trees are mostly bare, suggesting a late autumn or winter setting. The overall scene is a natural, wooded environment.
